

Discover the software in just a few clicks!

Main menu ribbon

Tabs for the other tools

Clickable timeline for easy zooming

Titles and subtitles you can organize with the mouse. You'll discover various other options in the right-click menu.

Free text area

Status line

Titles

	Title	Days
1	New title	

◀ Before creating an event, you'll need to create a title that will allow you to classify your events. This creates a tree structure.

1	PHASE 1
2	Air conditioning
3	Electricity
4	Ceiling
5	Alarm
6	Carpet
7	Furniture
8	Wall
9	Fireman

Insert in Electricity

Rename

Delete a title

Up

Down

Font color

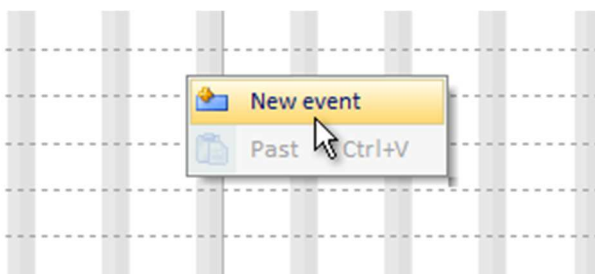

Color

◀ By right-clicking, you can quickly access functions and manage the tree.

By clicking and dragging a title, you can quickly move it where you want. ▶

3	Electricity
4	Air conditioning
5	
6	Furniture
6	Furniture
7	Alarms

Events

◀ If you right-click on a line, you'll notice the mouse cursor changes; then, while holding the left mouse button, you can move the cursor along the line from a starting date to a later date further on.

And your event has been created! ▶

Event properties

By double-clicking the event you've just created, you can quickly access its properties:

- ◀ Start and end of the event
- Background **color** and style
- **Lock the event** so that it can no longer be changed
- Update the event progress
- Add a helpful tooltip
- Manage links

You can also change the selected event's style using the **FORMAT** tab ▼

Linking events

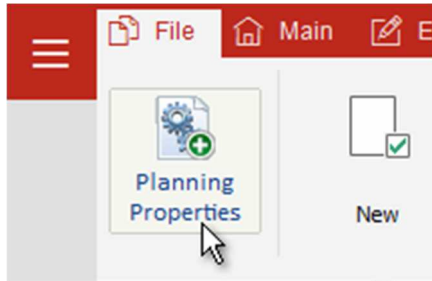

- ◀ From the **EDIT** tab or after right-clicking on an event, click on **Create/Remove a link** then click and drag from the first event to the second event, then release to create the link

To **remove** a link, just do the exact same thing again!

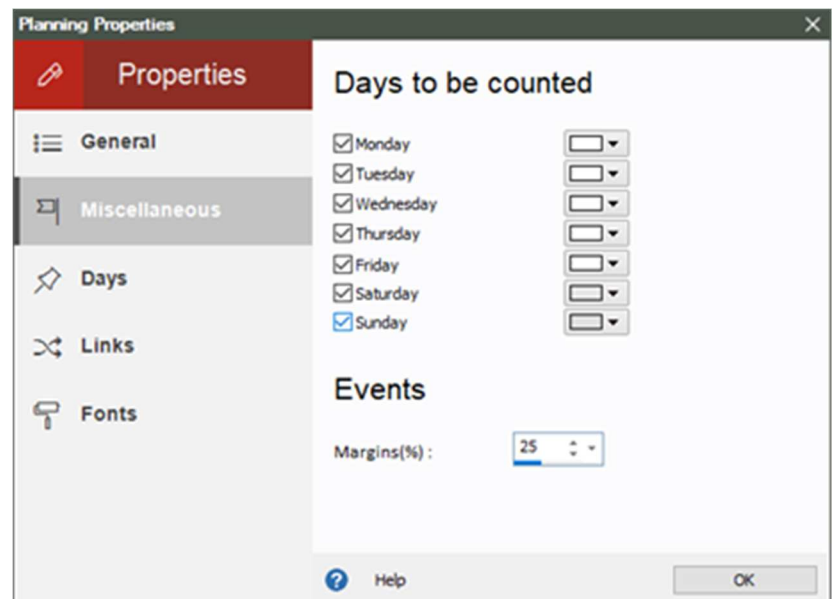

Your schedule properties

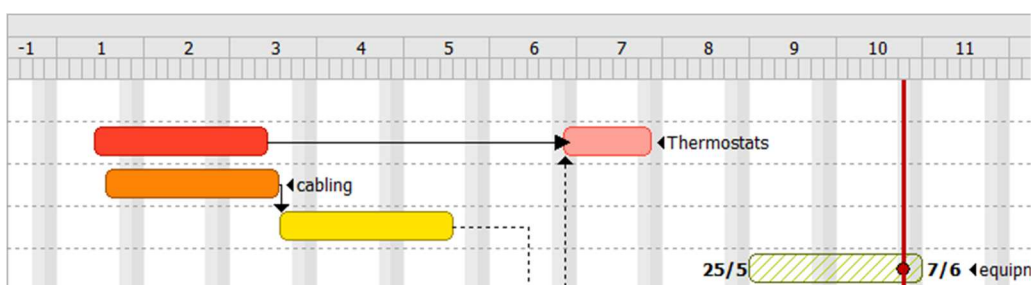

◀ Access your schedule properties using this icon

See various settings
(Titles, author, etc.)
Configure the days worked, the background
colors, and the fonts to be used. ▶

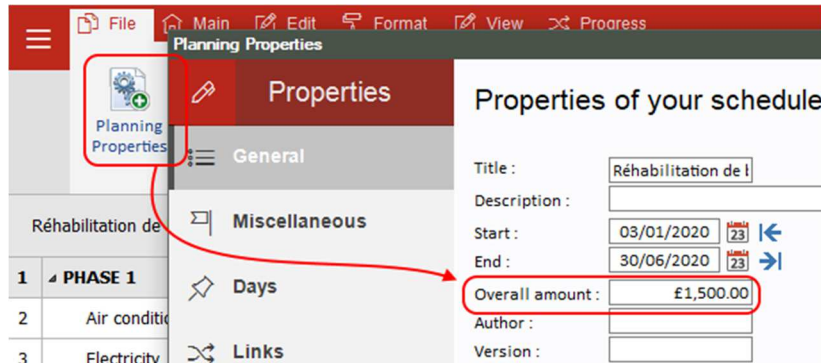

A projected schedule?

You can ask the software to only display **week numbers**. You'll then see WEEK 1, WEEK 2, etc, starting with the start of your project ▼

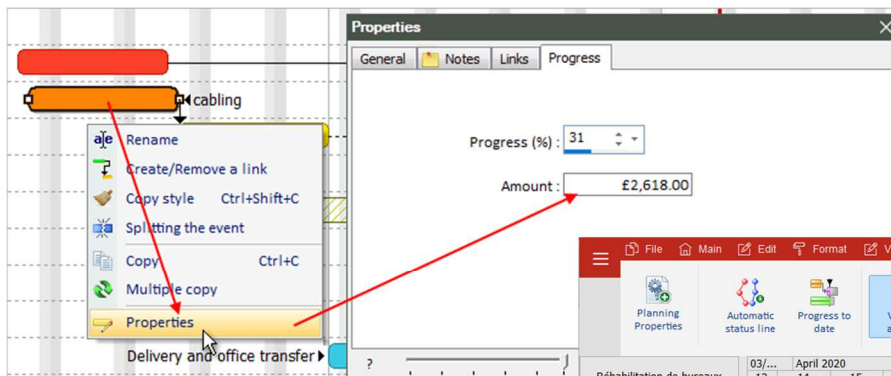

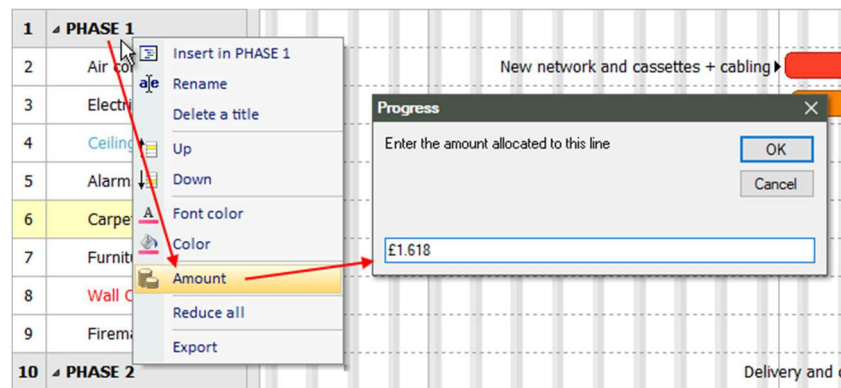

Financial estimation tool

The software comes equipped with a tool that lets you evaluate the financial situation of a project at a *given time*.

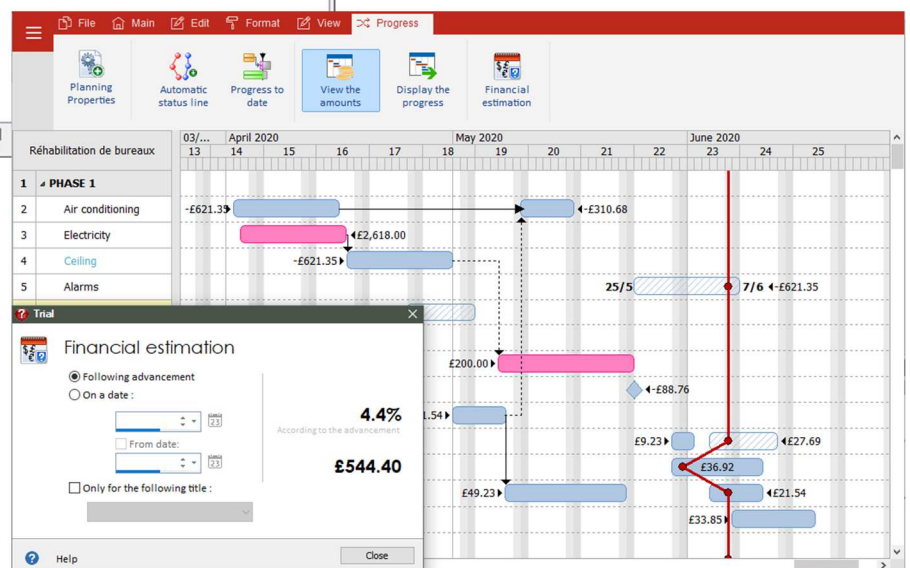

◀ In the properties, you can enter the global project amount

A planning phase might possibly also come with a cost ▶

◀ you can even set a fixed amount for a particular event

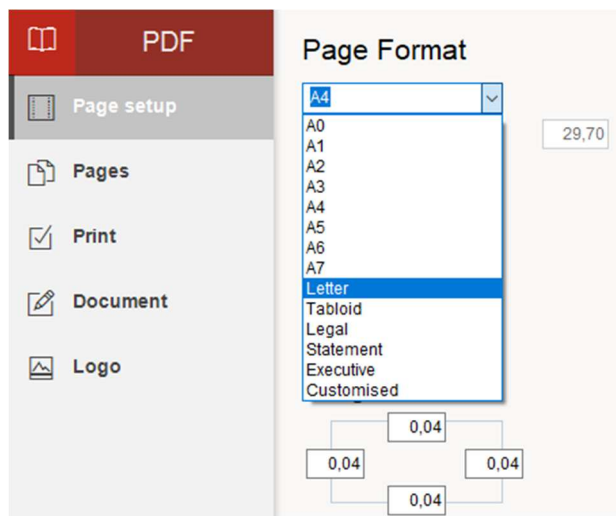

From the **Progress** tab, you can display the **calculated costs** per event and examine the schedule to discover the **used amount** at any given moment. ▶

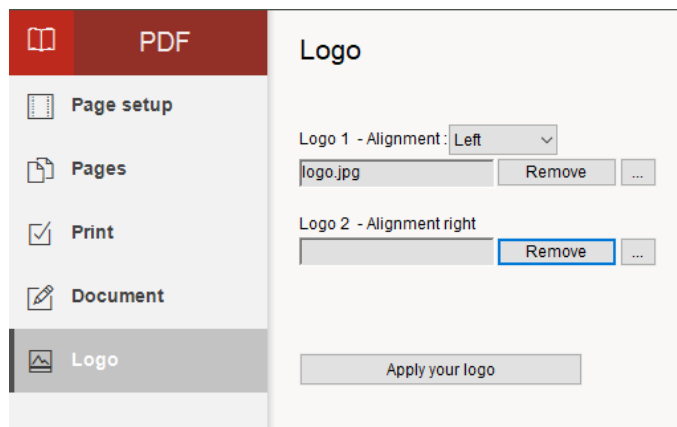

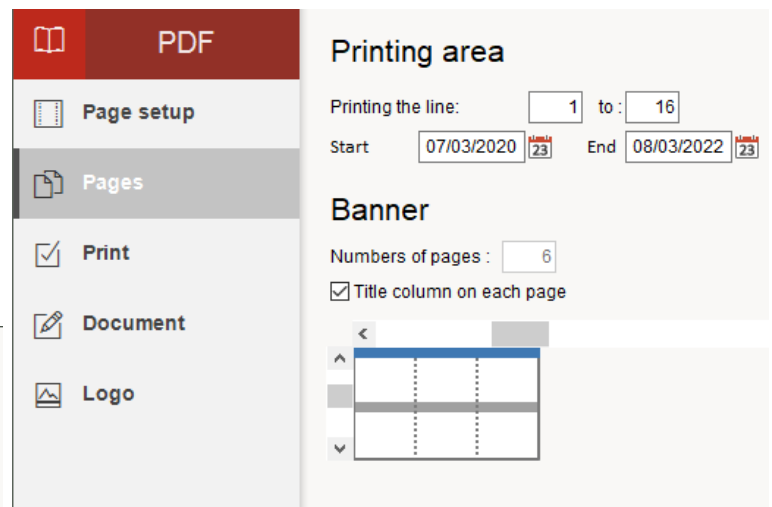

Print your schedule

A powerful PDF engine will allow you to generate your schedule in any dimension!

◀ From the "**Layout**" section you can choose a defined or customized format

You don't have a large format printer? stretch your print on 1 or more pages! ▼

alignment of the first one like this ▼

And Click on the Button [**EDIT**] to view your schedule in PDF format!
